CLUE #1

Your card can be Portrait or Landscape. Measurements and placement instructions are for a Portrait card. If you choose Landscape, adjust your measurements as noted below and GO ROGUE with your placement!

1. Colored Cardstock – 5 ½" x 8 ½", score at 4 ¼"
2. Designer Series Paper (DSP) – two different patterns
    - Pattern #1 – 4" x 5 ¼"
    - Pattern #2 – 2" x 5 ¼" (Landscape: 2" x 4")
    - Either Pattern #1 or #2 – ½" x 5 ¼" (Landscape: ½" x 4")
3. Colored Cardstock – (2) 2" x 2"
4. Basic White Cardstock
    - 1 ¾" x 1 ¾"
    - 4" x 5 ¼"
5. Mystery Item???? Think about an image that coordinates with your DSP. It can be stamped, punched, die-cut or fussy cut and should fit on your 2" x 2" colored cardstock.
6. Greeting stamp – small enough to fit on the 1 ¾" x 1 ¾" Basic White cardstock
7. Ink and coloring tools, if needed
8. Adhesive, including Dimensionals

CLUE #2

Fold your colored cardstock on the score line to create your card base.

Adhere the 4" x 5 ¼" DSP Pattern #1 to the card front, leaving an even border on all four sides.

CLUE #3

Adhere the 2" x 5 ¼" DSP Pattern #2 to the DSP layer on your card front.

Position it towards the left side, leaving approximately ¼" between the left edges of the two DSP layers. The top and bottom edges of both DSP layers should line up.

Use regular adhesive, not Dimensionals.

CLUE #4

Stamp your greeting on the 1 ¾" x 1 ¾" Basic White cardstock.

CLUE #5

Center and adhere your stamped Basic White cardstock to one of the 2" x 2" colored cardstock layers (Matt) using Dimensionals.

CLUE #6

Adhere your greeting/Matt layers to the upper right portion of your card front, leaving approximately ¼" from the right edge of the card base and 1" from the top edge of the card base.

Use Dimensionals! Or, if you are concerned about postage, use regular adhesive.

CLUE #7

Mystery Item time!!!!

Prepare your Mystery Item and adhere it to the center of your remaining 2" x 2" colored cardstock layer (Matt) using Dimensionals.

CLUE #8

Adhere your Mystery Item/Matt layers to the lower portion of your card front, leaving approximately 1" from the right edge of the card base and ¼" from the bottom edge of the card base.

Use Dimensionals! Or, if you are concerned about postage, use regular adhesive.

CLUE #9

Adhere the ½" x 5 ¼" DSP strip along the right edge of the 4" x 5 ¼" Basic White cardstock layer.

Line up the top, bottom, and right edges using regular adhesive.

CLUE #10

Adhere the Basic White cardstock/DSP layers to the inside of your card, leaving an even border on all four sides.

CLUE #11

Does your card need anything else? Embellishments, additional stamping, or a greeting on the inside? Add them now!

After you finish your card, make sure you take a picture and share it in our Mystery Monday Stampers Facebook Group!
